

```
process_attribute<  
scope >::init
```

```
graph LR; A["process_attribute<  
scope >::init"] --> B["nvinfer1::r"]
```

A diagram showing a relationship between two components. On the left, a gray rectangular box contains the text `process_attribute<` on the first line and `scope >::init` on the second line. A dark blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text `nvinfer1::r`.

```
nvinfer1::r
```
