

```
process_attribute<  
  buffer_protocol >::init
```

```
graph LR; A["process_attribute<  
  buffer_protocol >::init"] --> B["nvinfer1::r"]
```

A diagram showing a process attribute initialization pointing to a resource. The left box contains the code `process_attribute< buffer_protocol >::init`. A blue arrow points from this box to a right box containing `nvinfer1::r`.

```
nvinfer1::r
```
