

translate\_exception

```
graph LR; A[translate_exception] --> B["error_already_set::  
restore"]
```

A flow diagram consisting of two rectangular boxes connected by a horizontal arrow. The left box is shaded gray and contains the text 'translate\_exception'. A dark blue arrow points from the right side of this box to the left side of a second, white box. The second box contains the text 'error\_already\_set::' on the top line and 'restore' on the bottom line.

error\_already\_set::  
restore
